MORE ABOUT MEDIATION.

Insurrection in Poland.

NEW YORK, Feb. 13.—The steamship Etna has arrived, with Liverpool dates to the 28th ult., via Queenstown on the 29th.

The Asia and City of Washington had arriv-

The ship George Griswold, on her arrival in the Mercey, is to be received with salutes from batteries and men-of-war, by order of the Secretary of War.

Rumors of French mediation still circulate. Some authorities say they are authentic. It is reported that M. Drouyn de L'Huiys has instructed the French ministers at St. Petersburg, London, Vienna, and Berlin, respectively, to sound those courts, upon the fitness not of mediation, but of simple counsels which might be given the belligerents, advising them to name commissioners charged to examine, with or without an armistice, upon what basis an arrangement could be made to end the war.

Another authority says that de L'Huiys is preparing a vote for transmission to Washington, recommending compromise.

Owing to the delay in the arrival of the steamer Asia, and the consequent absence of later American news. The English journals are generally silent on American affairs.

The steamer Georgiana had left Liverpool and Holyhead for Nassau with large supplies of arms, ammunition, &c., and various necessaries for the Alabama, to which vessel she is called the tender.

The ship Eliza Bonsall has arrived at Liverpool, with fifteen hundred bales of cotton, from Nassau.

The London Times opposes the scheme for England contracting heavy liabilities for the Canada and Nova Scotia railway, and says we had better wait and see what becomes of the American republic before setting up such a costly defence.

The Emperor Napoleon had distributed to the French Exhibitions their rewards from the London Exhibition. He made an unusually literal and pacific speech.

The new Archbishop of Paris attacked England and Russia for not joining the French in their mediation policy.

The draft of the Senate's address to the Emperor expresses the regret that the proposals of France for mediation, was thought premature by other powers.

The Bourse is heavy and lower.

The Spanish government has accepted Gen. Prim's resignation.

The threatened insurrection has broken out in Poland. In the provinces around Warsaw simultaneous attacks were made on the troops in their various cantonments. Many soldiers were killed. A second massacre of St. Bartholomew is said to have been intended.

At the latest accounts, Warsaw was tranquil, and energetic measures had been taken to suppress revolt everywhere.

LATEST.—The political news is unimportant. Napoleon's new offer of mediation, it is thought by the English journals, will prove unacceptable.

The latest advices from Peland are favorable towards a peace.

LATEST VIA QUEENSTOWN.—PARIS, Jan. 29.—The Moniteur to-day says that Lord Cowley has been instructed by Earl Russell to express to M. Drouyn de L'Huys the satisfaction felt by the British government, on account of the late speech of the Emperor to the French exhibitors, and its strong desire to see the sentiment of mutual esteem daily-strengthening, which will unite the two nations, as well as their governments.

Petersburg, Jan. 28.—The revolutionists bands have taken refuge in the forests. In several places, peasants have been seized by the insurgents. The Times strongly supports the candidature of Saxe Coburg who is now the only candidate for the throne of Greece.

London, Jan. 28.—Evening.—The Bank of England to-day advanced the minimum rate of discount from 4 to 5 per ct. This caused the depression in the Liverpool cotton and other markets. The Districts of Rovern and Voltigma bordering on Poland have been declared in a state of siege. The peasantry take no part in the rising. The concentration of troops in all quarters is stifling the rebellion.

Thursday, Jan. 29. —The Globes notices as the most interesting points of the American news by the Asia, the growing feeling in Richmond, New York and Washington favorable to some sort of direct negotiation for the settlement of the dispute between the North and South.

The Shipping Gazette remarks that should the Emperor's proposal be rejected, he has left to himself, apparently the alternative to rncognize the South, and raise the Southern blockade.

ILLINOIS.—The Abolitionists in the Illinois Legislature resorted to all sorts of parlimentary strategy and violence to avoid making a quorum to act upon peace resolutions,—but the Democrats, through their Sergeant-at-arms, brought them back into both bodies, and made a constitutional quorum. The Abolitionists now threaten a revolution in the State, by refusing to appear any more in the Legislature to make a constitutional quorum. A writer from Springfield says:

"If the minority secede, and attempt to break up the Sante government, the only redress left to the people is establishment of a provisional government. The loyal people of Missouri have set the example, when treason attempted to suppress the government established by the People of that State. I see no difference between secession in Illinois and secession in Missouri."

The Legislature of Kentucky has already appointed Committees to consult, and Indiana, may follow through their organized Governmennts.—[N. Y. Express.
